## 6. Cleaning and maintenance

The laminated multilayered solid wood must be cleaned with a soft cloth. In case of stubborn stains we recommend the use of a small amount of mild detergent. Do not use corrosive products nor diluents.

**WARNING:** Please avoid any infiltration of water along the edges. Water is absorbed by the multilayered wood and it may damage the surface of the room service table. Use a soft cloth moistened with a small amount of alcohol or non abrasive products for the cleaning of the chromed parts. After the cleaning, dry carefully in order to avoid the persistence of halos. Periodically take care of wheels too: clean them from any dust under the castor covering and the central screw.
