### Silent minibar for hotels

With the TM minibar, your guests can always get a good night's sleep. It has a silent running absorption cooling system classified as 0 dB(A), meaning no disturbance. The minibar has an elegant design with a black exterior and an anthracite interior, which gives that high-end feel. It has internal LED lighting, which turns on when the door is opened. The cabinet can be fully integrated into the existing décor with a build-in bracket and hinge fixation kit, which allows a joint opening of the cupboard- and minibar door (available as accessory). A hinge fixation kit also secures the stability of the cooler and prevents it from tipping and sliding forward.
